

# City of Salem CERT Ham Net Script

Author: Lee Cowan – Sunnyslope 14A

Updated: 2025-08-10

## Five minutes before the net

This is **K7SLM** operating as the City of Salem EOC CERT Net. The net will start in a few minutes. A clear frequency would be appreciated. Anyone with an Emergency may break in at any time.

---

## The Net Script

This is **K7SLM** operating as the City of Salem EOC CERT Net. This is a directed net. Please wait until you are called on before calling in. Those not called on will have a chance to check-in later in the Net.

This net will meet on the FIRST SUNDAY of each MONTH at 4:30pm on **146.580 Mhz** simplex or on the 145.290 repeater as a back-up, if a net control is available. If you are on our list, you will get an email confirming the net.

The purpose of this NET is to test our radio's battery charge, antenna's and to determine if you will need to use a relay or can directly reach the EOC. This check-in will last 15 to 30 minutes.

Please give your phonetic call sign, name, coach or location you are calling from. Please speak slowly.

*Please refer to Cache List for locations to call (next pages).*

This concludes the City of Salem CERT Net. Thank you to all who have participated.

This frequency is now open to undirected traffic.
